RGV 500

Throttle Control

i Technical features

- New construction design to guarantee maximum reliability at high pressure (500 Bar)
- Axial traction of the accelerator cable: no shaft failure
- Easy to assemble
- One version with adjustable stroke from 7 to 14 mm

Part No	Rated pressure		Min. working pressure		Inlet	Stroke		Rated Temperature	
	Bar - MPa	psi	Bar - MPa	psi		mm	in	°C	°F
